Ayoub Kajai

Engineering Student in Digital Sciences | Data, HPC and Big Data

Toulouse, France | +33 7 51 20 28 03 | ayoub.kajai2024@gmail.com | Driving licence

Profile

First-year engineering student at INP-ENSEEIHT (N7), passionate about data and high-performance computing. Disciplined, ambitious and a confident communicator, I am seeking an internship in data, HPC or Big Data.

Skills

Programming: Python, C, Ada, SQL

Office: Excel, PowerPoint

Creative: video editing, motion design

Soft skills: public speaking, teamwork, discipline, proactive with new ideas

Languages

French: C1 (DALF)

English: fluent

Arabic: native

Spanish: beginner

Interests

Football, weight training and running (6 sessions a week)

Chess (1280 Elo)

Education

Engineering degree (MSc level), Digital Sciences 2026 – 2029

INP-ENSEEIHT (N7), Toulouse, France

Computer Science and Telecommunications, 1st year.

Admitted through the CCINP competitive exam (ranked 1030th).

Preparatory classes (CPGE), MP track 2024 – 2026

Lycée Reda Slaoui, Agadir, Morocco

Intensive mathematics and physics programme.

Baccalaureate in Mathematical Sciences 2024

Lycée Al Inbiaat, Agadir, Morocco

Highest honours (18.25/20).

Projects

TIPE research project 2026

Theoretical and field study of a real-world problem, followed by a hands-on solution built with technical tools.

Monthly budget dashboard Personal project

Tool to track personal monthly spending.

Workout tracking app Personal project

App to log and follow weight-training sessions.

Restaurant website Personal project

Design and development of a website, built with AI-assisted tools.

Career goals

Target specialisation: high-performance computing (HPC) and Big Data.

Next to learn: parallel programming (MPI, OpenMP) and large-scale data processing (Spark).

Target sectors: numerical simulation, aerospace, space and weather forecasting.

Goal: an internship, then a final-year project in high-performance computing.
